All these features help you to speed up and improve your work by making it easier to ensure the quality of your modeling and to run simulations. All new features and functionality are available immediately and can be downloaded and installed instantly through the SRM7.1 web portal. "We are very pleased to have added the new functionality in SRM to SRM7.1," said Andy Piper, President and CEO of StoneSymphony. "The new SRM Model Checker is a simple and quick way to verify or redline architectural models on the iPad or iPhone." SRM Model Checker V7.1 can be downloaded free of charge from the StoneSymphony's website at www.stonesymphony.com/software. About StoneSymphony StoneSymphony, Inc. is the world's leader in BIM-based 3D modeling tools for architectural professionals and engineering firms. The company's products are used by professional architects, designers, planners, civil engineers, interior designers, landscape architects, and structural engineers and project managers around the world. Based in Boulder, Colorado, the company is privately held and employs more than 90 people. For more information, please visit www.stonesymphony.com or call 303-540-0900. # # # Statements in this news release that are not historical facts are "forward-looking statements." These statements are based on current expectations, estimates and projections about our business, management's future actions, underlying assumptions, and other factors. You can identify these statements by the fact that they do not relate strictly to historical or current facts. These forward-looking statements may include, but are not limited to, statements about the benefits of our products and services, our future financial performance, the prospects of our business and its operations, our strategy, plans, objectives, expectations and intentions and other statements containing the words "anticipate", "believe", "expect", "intend", "estimate", "may", "plan", "will", "would", "could", "should", "forecast", "outlook", "potential" and similar words or phrases. Forward-looking statements necessarily involve known and unknown risks, including, without limitation, risks associated with the failure of our products and services, potential or actual conflicts of interest, uncertain political and economic conditions, intellectual property risks, environmental risks, and factors that could affect the outcome of any future plans or initiatives of the Company. We caution readers not 82157476af
